***Claim Rejections - 35 USC § 112***

Claims 1-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added limitation where "... the portion of the channels are proportional to a decode time as it is recited in the claims" is not adequately described in the spec. and is a new matter.

***Response to Arguments***

Applicant's argument on the basis of the newly added limitation against Heo patent is moot in view the new matter rejection.
